#### Fun Facts About Foxes!

Quiet and clever, the fox is a favorite forest animal. Share these fun facts about the cute creatures:

Foxes are in the same family as dogs and wolves, but they actually behave more like cats! They have long, sensitive whiskers and vertical pupils in their eyes. They tend to be solitary animals and are most active at night. Some foxes even have retractable claws that allow them to climb trees.

Male foxes are called dogs, and females are vixens. Baby foxes are known as pups, kits or cubs. "Leash" and "skulk" are both names for a group of foxes.

A fox stays warm during cold weather by curling up under its thick, fluffy tail, which is called a brush. Its tail, often sporting a black or white tip, also helps it communicate with other foxes.
